WOODEN WASH BASIN & BATHTUB MANUFACTURER

WATER AND WOOD— A PIECE OF NATURE IN YOUR EVERYDAY LIFE

TRADITION AND MODERNITY IN ONE

A natural live, surrounded by warmth and nature. Sinks and bathtubs from the natural material of wood create a unique atmosphere and comfort to bring new energy into your everyday life. Dive into the world of grinERA wooden washbasin and baths and experience a new feeling of natural wellness.

Already a long time ago the bathroom shifted from its former functional wet-cell into the center of our living culture. grinERA has set itself the task of bringing you closer to your dream of a wellness oasis within your own walls. In the center of this is natural wood, a living material.

grinERA puts the versatile design of wood into unique wooden sinks and wooden bathtubs.

The use of wood in the bathroom does not simply follow a trend, but has been found to improve the well-being. Live in harmony with nature, surrounded by carefully processed wooden products which create a unique feeling of cozy warmth and inner balance. Our products combine functionality with aesthetics and provide you with high quality materials for a unique living environment.

QUALITY AND CRAFTSMANSHIP

Our mission: unique in quality and craftsmanship processing. All our products are made of solid hardwood and are hand-made, Only this guarantees the highest quality. Being a pure natural product, each wooden sink or bathtub, is a living unique piece with resistance to value without compromise. Slight variations in dimension, individual grain and darkening are as natural as desired. Precisely these qualities make our products so unique and individual.

WOOD IN YOUR BATHROOM

The natural material wood can be shaped into almost unlimited varieties. The different designs of grinERA products are characterized by timeless forms and functionality. Our wooden wash basins bathtubs merge quality, aesthetics and attention to detail in a unique way.

Choose the material for your sink wood from a wide range of wood species such as cherry, walnut, maple, iroko, wenge, teak, oak and many more. Each design is available to fit all your needs through the available wood species. If you are looking for a very special kind of wood for your bath, please contact us and our skilled workers and wood experts will help you with advice and support.

We give you the choice of the surface treatment of our products: coating or oil - a question of look, feel and personal preference. All our products are surface treated according to your wishes with either oil or varnish with matte or glossy. Decide for yourself which surface you like best and find most appealing.

UNIQUE ACCORDING TO YOUR WISHES

Whether for the guest bathroom, the master bathroom or to the spa, we will be pleased to get inspired from your dreams.

In precision work, we also produce according to your individual wishes. Your personal choice of shape, wood type and finish gives you the freedom to create your unique sanitary product which will give a stunning look to every bathroom. Share your ideas and desires with us, because there is hardly anything that would not be possible to be made from wood.

ROUNDERA

CHOOSE YOUR WOOD

WOOD IN YOUR BATHROOM - INDIVIDUAL AND MODERN

LONGEVITY THROUGH SIMPLE MAINTENANCE

Depending on the sealing surface of your grinERA wood product the maintenance is generally not different from any conventional sanitary product.

Painted wood and wood washbasins bathtubs can be cleaned with commercial cleaners. It is to be noted that these cleaning products are not based on strong chemical base or mixed with abrasive cleaners, since this could damage the surface.

Wooden sinks and bathtubs with oiled surface should also be oiled in regular intervals. Of course we will supply you with the specially developed oil mixture, together with your purchase

A PIECE OF NATURE IN YOUR EVERYDAY LIFE

With wooden bathtubs and sinks from grinERA your bathroom changes into a wellness spa. Dive in and enjoy the relaxing effect of warmth and nature. A bath in the cozy atmosphere of wood, will help you to forget everyday life and recharge your inner batteries. Our products create a very special and stylish ambient in your bathroom.

The spacious, timeless design fits easily on your premises and are a highlight in every bathroom. Experience the unique feeling of the water in combination with wood, and learn a new way to relax.
